

## Course Program

<b>Thursday, 5 February 2009</b>		<b>Gastro-intestinal Tract Surgery</b>
08.30 - 09.00	Course introduction	
09.00 - 11.00	<b>Lectures:</b> Basic techniques in abdominal and gastro-intestinal surgery How to open and close the abdominal wall Gastro-intestinal tract: Surgical anatomy Gastro-intestinal surgery: Basic knowledge (from stomach to small intestine) <ul style="list-style-type: none"><li>- Gastrotomy</li><li>- Intestinal biopsies and enterotomy</li><li>- Enterectomy and end-to-end anastomosis</li></ul>	Dupré Pirker Dupré
11.00 - 11.30	<b>Coffee break</b>	
11.30 - 12.15	Large intestine: colotomy, colectomy, colopexy	Findji
12.15 - 13.15	<b>Lunch break</b>	
13.15 - 17.15	<b>Laboratory:</b> Gastrotomy, gastrorrhaphy, gastropexy Enterotomy enterectomy, enterorrhaphy Jejuno-colic, colorectal anastomosis	Dupré, Findji, Pirker, Katic
17.15 - 17.45	<b>Suture Material:</b> General Presentation <b>Vétoquinol</b> <b>Debriefing</b>	Vétoquinol
18.00 - 21.00	<b>Social Event: Welcome Dinner</b>	
<b>Friday, 6 February 2009</b>		<b>Urinary Tract Surgery</b>
09.00 - 10.30	<b>Lectures:</b> Basic techniques in urinary-tract surgery Urinary tract : Surgical anatomy Urinary tract surgery: Basic knowledge and techniques - cystotomy, nephro-nephrectomy, urethrostomy	Pirker Dupré
10.30 - 11.00	<b>Coffee break</b>	
11.00 - 12.00	Current knowledge on urolithiasis / Medico-surgical management of the obstructed patient	Findji
12.00 - 13.00	<b>Lunch break</b>	
13.00 - 17.15	<b>Laboratory:</b> Cystotomy, cystorrhaphy, urethrotomy Hydropulsion techniques Nephrectomy	Dupré, Findji, Pirker, Katic
17.15 - 17.45	<b>Debriefing</b>	Dupré
<b>Saturday, 7 February 2009</b>		<b>Skin Reconstruction Surgery</b>
09.00 - 10.45	<b>Lectures:</b> Basic techniques in reconstructive surgery Wound management: From the fresh wound to the granulation tissue Surgical anatomy Basic reconstructive techniques: local and distant flaps Axial pattern flaps: The first steps	Dupré Katic Dupré Dupré
10.45 - 11.00	<b>Coffee break</b>	
11.00 - 12.00	<b>Clinical Cases:</b> Choosing the right closure method How to choose the right suture and ligature material	Dupré Dupré
12.00 - 13.00	<b>Lunch break</b>	
13.00 - 17.15	<b>Laboratory:</b> The H plasty, the axillary flap Distant flap Caudal superficial epigastric	Dupré, Findji, Katic
17.15 - 17.45	<b>Debriefing</b>	Dupré

**Sunday, 8 February 2008 Laparoscopy and Abdomen**

09.00 - 10.30	<b>Lectures:</b> Biopsy techniques: liver, kidney, spleen Spleen removal: the fast splenectomy Uses of omentum in surgery		Findji Pirker Dupré
10.30 - 11.00	<b>Coffee break</b>		
11.00 - 12.00	The septic abdomen: How to manage it?		Findji
12.00 - 13.00	<b>Lunch break</b>		
13.00 - 14.00	An introduction to mini-invasive surgery / New HF equipment		Dupré
14.00 - 17.00	<b>Laboratory:</b> Mini-invasive surgery	Dupré, Fiorbiano	The fast splenectomy, omentalisation Rehearsal of previous techniques
18.00	<b>Social Event</b>		Findji, Katic, Pirker

**Monday, 9 February 2008 Laboratories**

08.15 - 09.00	General introduction		
09.00 - 12.00	<b>Laboratory:</b> <b>Group A</b> Feeding tubes + Final Examination	Eberspächer, Pirker, Katic	<b>Group B</b> Live animal laboratory
12.00 - 13.00	<b>Lunch break</b>		Dupré, Findji
13.00 - 16.00	<b>Laboratory:</b> <b>Group B</b> Live animal laboratory	Dupré, Findji	<b>Group A</b> Feeding tubes + Final Examination
			Eberspächer, Pirker, Katic

*In the afternoons there will be a coffee break in-between the laboratory sessions.*

**Scientific Organisation:**

**Course Master:**

*Prof. Dr. Gilles Dupré (DECVS)*

**Course Instructor and Lecturer:**

*Dr. Laurent Findji (DECVS)*

**Other Instructors and Lecturers:**

*Dr. Nikola Katic, Dr. Armin Pirker, Dr. Eva Eberspächer (DACVA)*

**Course Administration on Site:**

*Ms. Roswitha Krebs, Ms. Elizabeth Zehetner*

**Practical Organisation of Exercises:**

*Technicians under the supervision of Ms. Marie-Luise Meier*

**Practical Organisation of Anaesthesia:**

*Technicians and anaesthesia residents under the supervision of Dr. Eva Eberspächer*
